THE STORY

C.A. Fortune is a full-scale consumer brands agency that we had the opportunity to furnish in 2020.

As a growing company, C.A. Fortune was relocating into a larger Chicago space, combining downtown and suburban offices. With a focus on brand ideation and creative design, the client's goal was reflecting their personality, "punch in the face" palette, and clear distinction as a forward-thinking boutique agency with national scope.

The outcome was a seamless collaboration with Ware Malcomb, providing C.A. Fortune a newly furnished space to welcome clients, generate ideas, and give their team all the "good feels."
