### DESIGN FIRM

Charlie Greene Studio

### GENERAL CONTRACTOR

BIG Construction

### PROJECT MANAGEMENT

Savills

### MANUFACTURING PARTNERS

Teknion, Icon Modern, Humanscale, Studio TK

### PHOTOGRAPHY

Christopher Barrett

## THE STORY

Elite Staffing is one of the fastest growing temporary employment services and staffing agencies in the nation. To accommodate its growing team, Elite Staffing was seeking a new space that would help the company continue to attract and retain clients and employees. Having prior working relationships with both the design firm and project management company, Office Revolution was brought in to provide furnishings to complement the design and bring the client's vision to fruition.

In collaboration with Charlie Greene Studio, we delivered a variety of tailored furniture selections to accommodate the various needs of Elite Staffing's team. For individual workstations, we provided Teknion upStage desking while the open collaboration space features an Inheritance Sofa from Stephen Kenn and Studio TK Kalm Lounge Chairs that are ideal for team meetings, brainstorm sessions or just a friendly chat with a colleague. With creativity, culture and innovation thriving on in-person interaction, the new space flexibly caters to both large and small-group meetings and collaborative efforts.

Tek Vue Architectural Interiors by Teknion provide privacy in conference rooms and private offices. Not only did this in-stock solution provide a bypass to material supply-chain delays—and help us stay under budget and meet our deadline—it also elevated the space aesthetically, bringing in more natural light.

The past few years have brought about some changes in the way we think about office design, focusing even more now on the quality and flexibility of the space and incorporating creative solutions to supply challenges. Underscoring connection and collaboration, we furnished a setting for Elite Staffing ideal for fostering long-lasting and memorable experiences.
