SIZE

130,000 Sq./Ft.

THE STORY

Hub Group, the national leader in model shipping, recently completed their new 130,000 square foot headquarters in Oak Brook, IL.

The design showcases their signature green shipping containers used to create casual lounge areas within the open office. This new space reflects their company culture, encouraging high levels of interaction and collaboration. The design also incorporated sustainable technologies to award the building with LEED Gold Status.
