Loftwall

## THE STORY

Jet Edge, a private aviation company, was relocating their corporate headquarters to Columbus, Ohio after their recent acquisition of JetSelect Aviation. Serving some of the most sophisticated individuals and companies in the world, Jet Edge was seeking a contemporary look to reflect their brand.

Office Revolution furnished the cafe space in Teknion Zones modular seating and tables, producing an area that suits a variety of needs. Utilizing the signature serpentine form, this two-toned seating separates and creates distinct meeting areas with its mix of low-back and backless units, and varying direction.

Creating an image of work-play integration, this newly designed space creates a casual and relaxed atmosphere perfect for our client.
