Eastlake Studio

SPACE TYPE

Corporate Office

MANUFACTURING PARTNERS

Teknion, Studio TK, Humanscale, Custom Crafters, Coalesse, Kimball and Nienkamper

SIZE

3,043 Sq./Ft.

THE STORY

After years of our headquarters being located in Riverwoods, IL, we decided that it was time for an upgrade to an office in Bannockburn, IL that features an improved design with a more central location.

The goal of the project was to highlight our brand and to let the design tell our story. Moving from 1,200 sq. ft to nearly 4,000 sq. ft, we transformed an office from dated to sophisticated. We utilized pieces from a number of the manufacturers that we work with to create a space that functions both as a showroom and as an active, working office. By partnering with Ware Malcomb and TW Construction, we were able to create a modern office that helps to retain and recruit talent, while also inspiring a collaborative and effective environment.
