Teknion, StudioTK, Compel, Humanscale and National

## THE STORY

We are excited to reveal our Columbus, Ohio location that is located in the Brewery District, a flourishing neighborhood that is also the location of the Hoster Brewery redevelopment project.

Our new space spans 5,200 sq. ft. and is located in a historic property dating back to 1900. Because of our partnership with John Staudt and Axis Construction, we were able to maintain the integrity of the original space while accommodating the modern needs of our furniture. Upon entering the space, you are greeted by beautiful brick walls, polished concrete floors, industrial pane windows, and original barn doors that together create a unique, working showroom filled with natural light.
