Vondom

THE STORY

Columbus Crew—the first club in Major League Soccer and two-time MLS Cup Champions—provides an electrifying matchday atmosphere thanks to its passionate fanbase. With 99% of premium seating options already sold out, Mathias Collective was approached to assist in the creation of two new spaces for corporate entertainment: The EASE Party Deck and EASE Box located by the Nordecke supporters' section.

Lower.com Field is renowned for hosting the most passionate fans in the game, and Office Revolution wanted to bring that enthusiasm to the stadium terrace FF&E. Through a custom blend of furniture tailored to meet the demands of group events, we furnished a truly remarkable outdoor space. Cane Line's Conic Modular Units create a comfortable atmosphere, plus their reconfigurable design makes it easy to tailor the area for group events. The area is also enhanced by stylish barstools from Florida Seating and 4Topp's drink rails for optimal viewing of the game. To complete the vision, North Street Supply provided custom stainless steel bar carts for maximum convenience.

Through combined efforts, the EASE Party Deck at Lower.com Field was born and provides groups the perfect environment to cheer on the Crew!
