THE STORY

Ohio Means Jobs gave new life to the vacant Whitlach Building, which was previously occupied by Cuyahoga County. The individuals at OMJ assist area businesses with their hiring and training needs in order to help them stay competitive in today's business environment and provide the residents of Cleveland with the tools necessary for a successful job search. We were very proud to be a part of helping such an impactful organization better their access to the community and provide new technology to help the businesses and citizens of Cleveland gain a competitive edge.
