RAVAGO

LOCATION

Medina, OH

SPACE TYPE

Office, Warehouse,
Furniture, Industrial

SIZE

500,000 Sq./Ft.

THE STORY

Ravago Manufacturing produces a wide range of plastic and rubber materials from high performance engineered resins to recycled post-consumer materials. This new 500,000 square foot manufacturing facility included office space, an extended railyard addition, 16 silos, a C9KV substation, truck drives, and employee parking lot with room for a 280,000 square foot future expansion. Natural light, wood accents, and stone were used to bring a warm ambiance to the new space. Private offices feature custom case goods with glass fronts on the overheads. Additional amenities include sit-to-stand desks, fitness center, cafe-style dining area, as well as baffling and muffling systems to address acoustic concerns.
