## THE STORY

Trelleborg is a world leader in engineered polymer solutions that seal, damp and protect critical applications in demanding environments. These innovative engineered solutions accelerate performance in a sustainable way. This new 148,750 square foot manufacturing and warehouse facility with accessory two story office was designed to condense three buildings into one. The site was chosen because of it's ability to allow for the potential of a future 100,000 square foot expansion.
