## THE STORY

Sterling Bay is one of the leading real estate developers in the city of Chicago. Having developed multiple famous projects in Chicago (McDonald's, Google), we knew that we needed to create a unique and inviting space for their new offices in the West Loop.

Although we had an extremely tight schedule, we worked efficiently and under budget to create a space that reflects the company's brand and vision. The natural warm accents of the furniture and walls combined with the warm hues of the decor truly make this beautiful office one-of-a-kind.
