THE STORY

After working together in La Jolla, California, we were very excited about the opportunity to furnish Traffic Tech's new office in Chicago. As an industry leader in shipping services and transportation, Traffic Tech was looking for an office aesthetic representative of their brand: modern, forward-thinking and innovative.

We utilized a number of manufacturers to create a space that promotes both collaboration and innovation, and we are looking forward to seeing Traffic Tech thrive in this space.

“

“The customer service and attention Traffic Tech received from everyone at Office Revolution throughout all our projects has been outstanding!”

BRIAN STAPLETON | COO, TRAFFIC TECH
