THE STORY

Atlas Durham is a newly-designed multi-family residence building that is walk-able and shop-able to coffee shops, breweries and shops and an arcade. We were excited to partner with Cline Design for this project after working together on corporate spaces in the past.

Striving for a modern look and feel, while not overlooking practicality, the new space features products from Andreu World, Poppin, Allermuir, Four Hands, Summer Classics, Source Outdoor and many more. The spaces furnished include a clubhouse lounge area, community kitchen and dining area, a model unit, pool and outdoor lounge areas
